

AMENITY LIGHTING
TUNNEL LIGHT

ONYX

Onyx is designed to surface mount symmetrical heavy duty luminaire. With its toughened glass front and easy-to-use clip system, it provides vibration resistant and yet allows easy maintenance. Ideally suited for road tunnel illumination.

Features include:

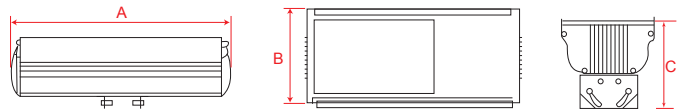

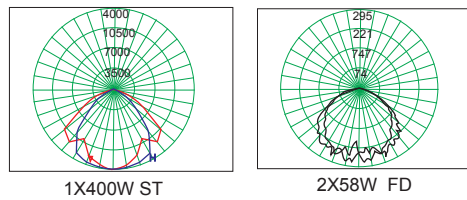

Housing made of extruded aluminium alloy.

5mm tempered glass diffuser, finished with gas tight heat resistant silicon.

Symmetrical anodized aluminium reflector.

Stainless steel clips.

Instant on and instant restrike advantages.
